WHO WE ARE !

Trinitas Foundation is a non-governmental organization with a mission to provide sustainable economic empowerment, food relief, invest and support growing African ventures and facilitate robust educational support for African children. Our focus is women empowerment, food relief, economic support, and education. So far we have been able to reach over 200,000 people across 15 cities in Nigeria, providing needed aid and assistance across our focus areas.

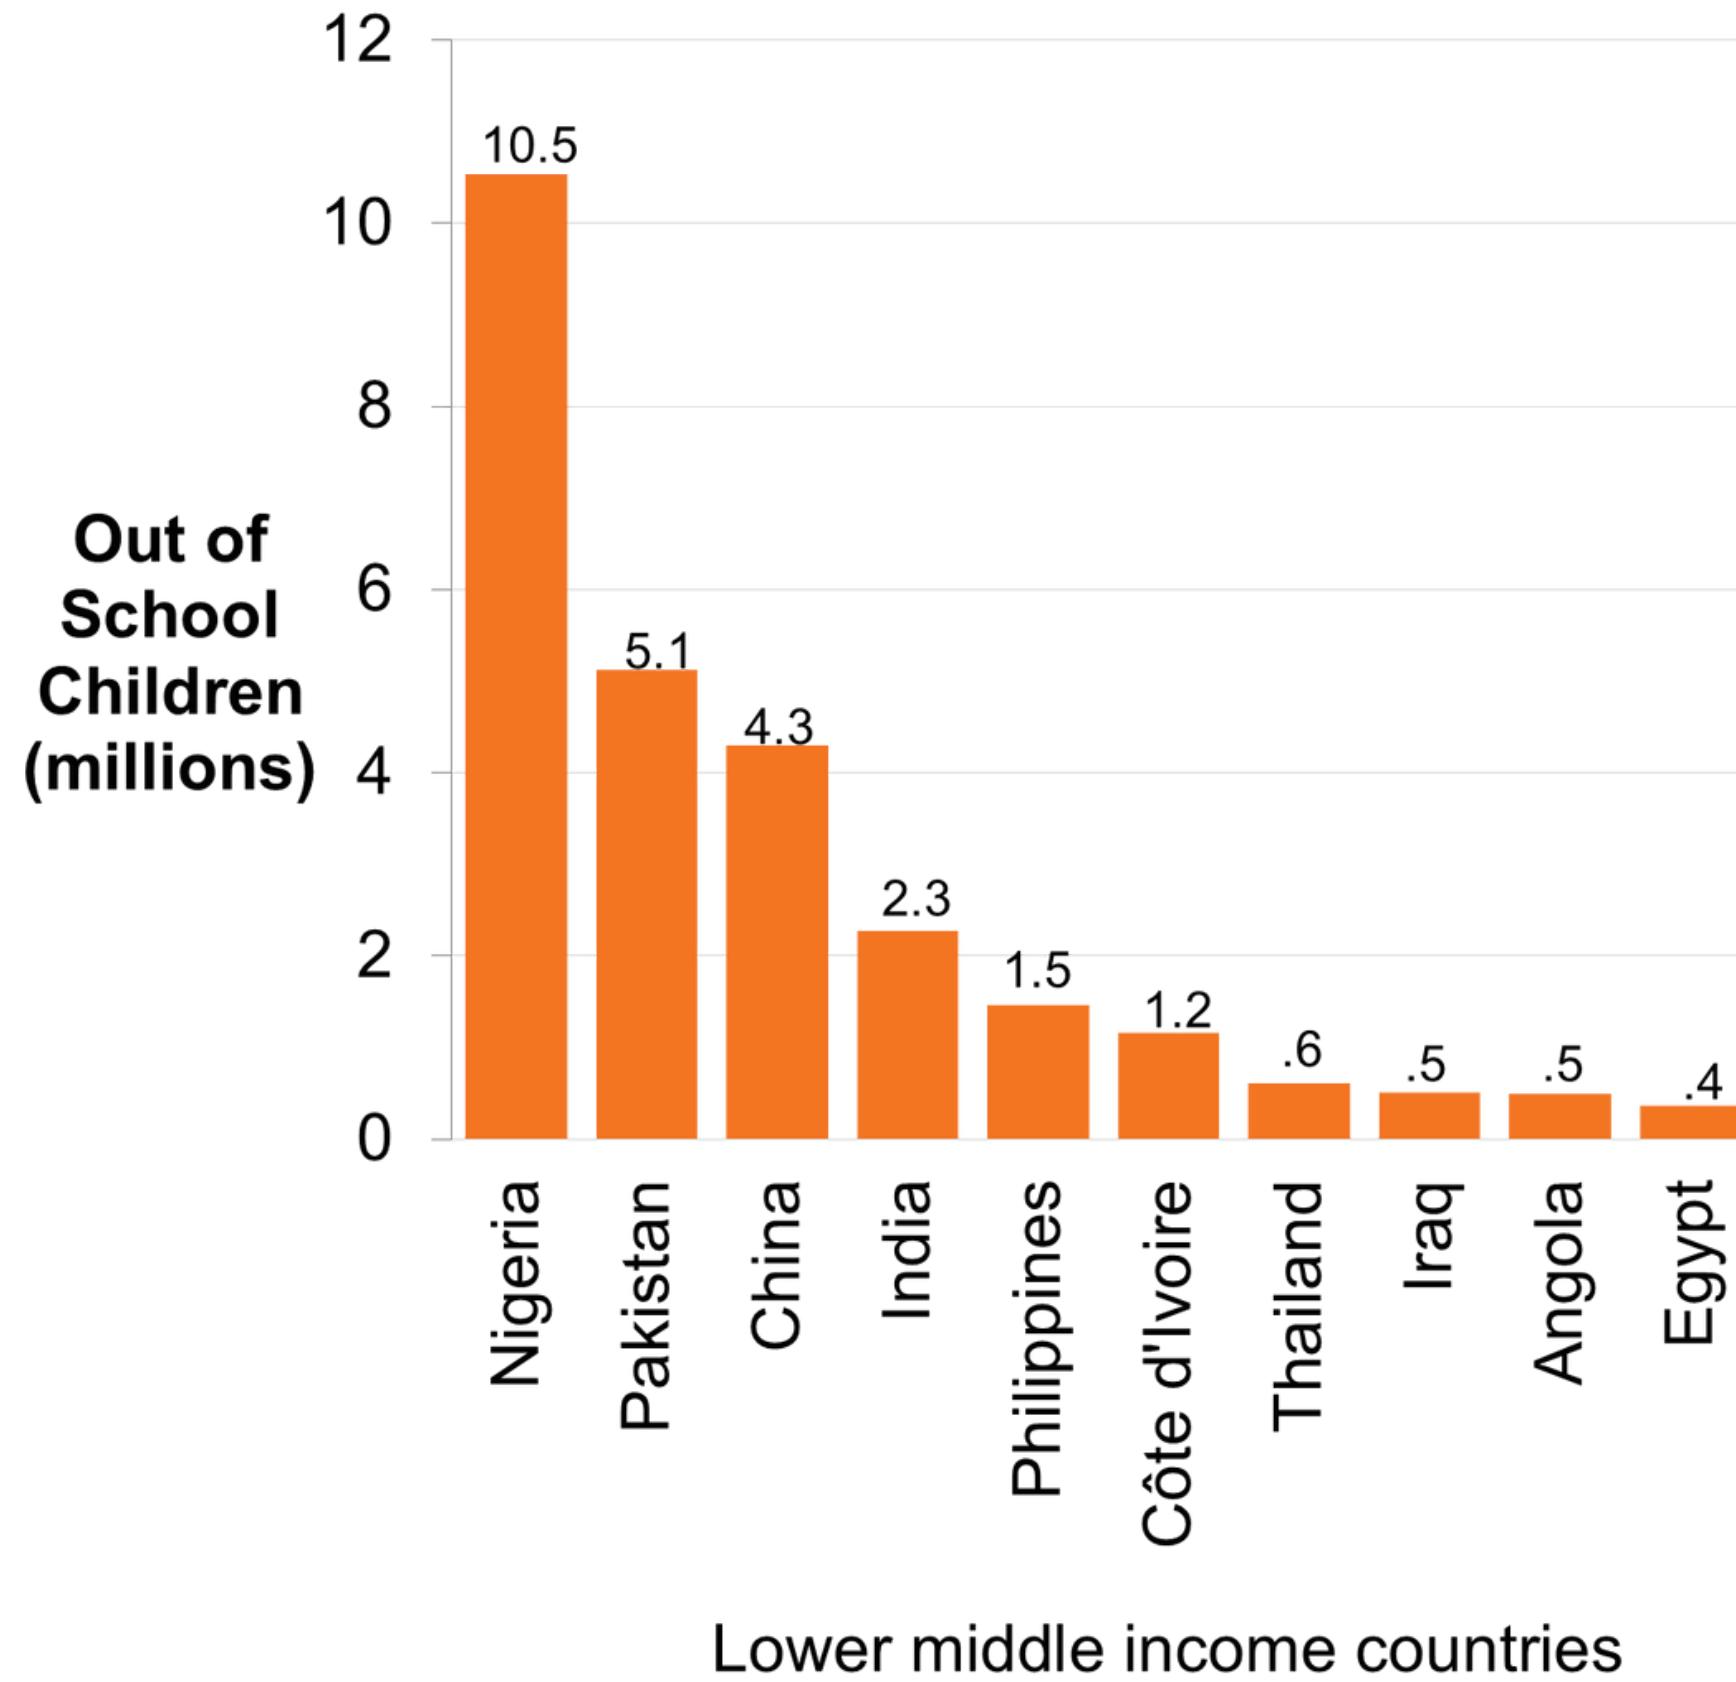

ABOUT OUR FOUNDER

Ade George is the Founder/CEO of Trinitas Foundation and Corporate Luxury - a luxury lifestyle company founded in 2016. He is an experienced Chief Executive with a demonstrated history of working in Luxury Brand Marketing, Luxury Goods, Product Design, Strategic Planning, and Brand Management. His expertise cuts across capital campaigns, individual giving, social charity, business partnerships, and fund-raising. This includes experience in delivering change, creating value-added solutions, establishing pathways and programs for philanthropic investment and strategic giving.

Ade is an Ambassador of the ECOWAS Youth Council of Nigeria. He is an alumnus of the prestigious Olabisi Onabanjo University, Ogun State. . He also holds an MSC in Business/Corporate Communications.

ABOUT THE KIDDITECH PROJECT

Source: UNESCO e-atlas on out of school children

A report by the United Nations Education Office ranked Nigeria amongst the top 12 countries with a large population of school children that are not in the classrooms. The statistics get more frightening as young Nigerians are being deprived of opportunities such as lack of access to education and educational materials including basic computer knowledge - Digital poverty. Digital poverty widens the gap of educational inequality which in turn limits opportunities for the youth and creates problems for the future and by extension, the society, this is a disaster that needs to be addressed urgently.

10.5 MILLION
OUT OF SCHOOL CHILDREN
IN NIGERIA

In

March 2021,

Nigeria's Ministry of Education stated that the number of out-of-school children stands at over 10.1 million, an increase of more than 3 million from 2020.

There is therefore a need to address the school dropout, illiteracy, and digital poverty through empowering Africa's tomorrow today, with world-class IT beginner knowledge.

The Trinitas KIDDITECH Project is a technology-based program designed to address the technology gap between Nigerian underprivileged children and their counterparts around the world. By providing these students with the required materials such as personal computers and developing their technology skillsets in Advanced IT, coding, and artificial intelligence, KIDDITECH is a free program that aims to reach 200 children in 10 schools across Nigeria.

THE VISION OF THE PROJECT

To empower Africa's tomorrow today, with World-class tech knowledge.

THE MISSION OF THE PROJECT

To train 200 under-privileged Nigerian children across different public secondary schools in Advanced IT, coding and artificial intelligence, thereby bridging the digital gap between our future leaders and their counterparts in developed countries around the world.

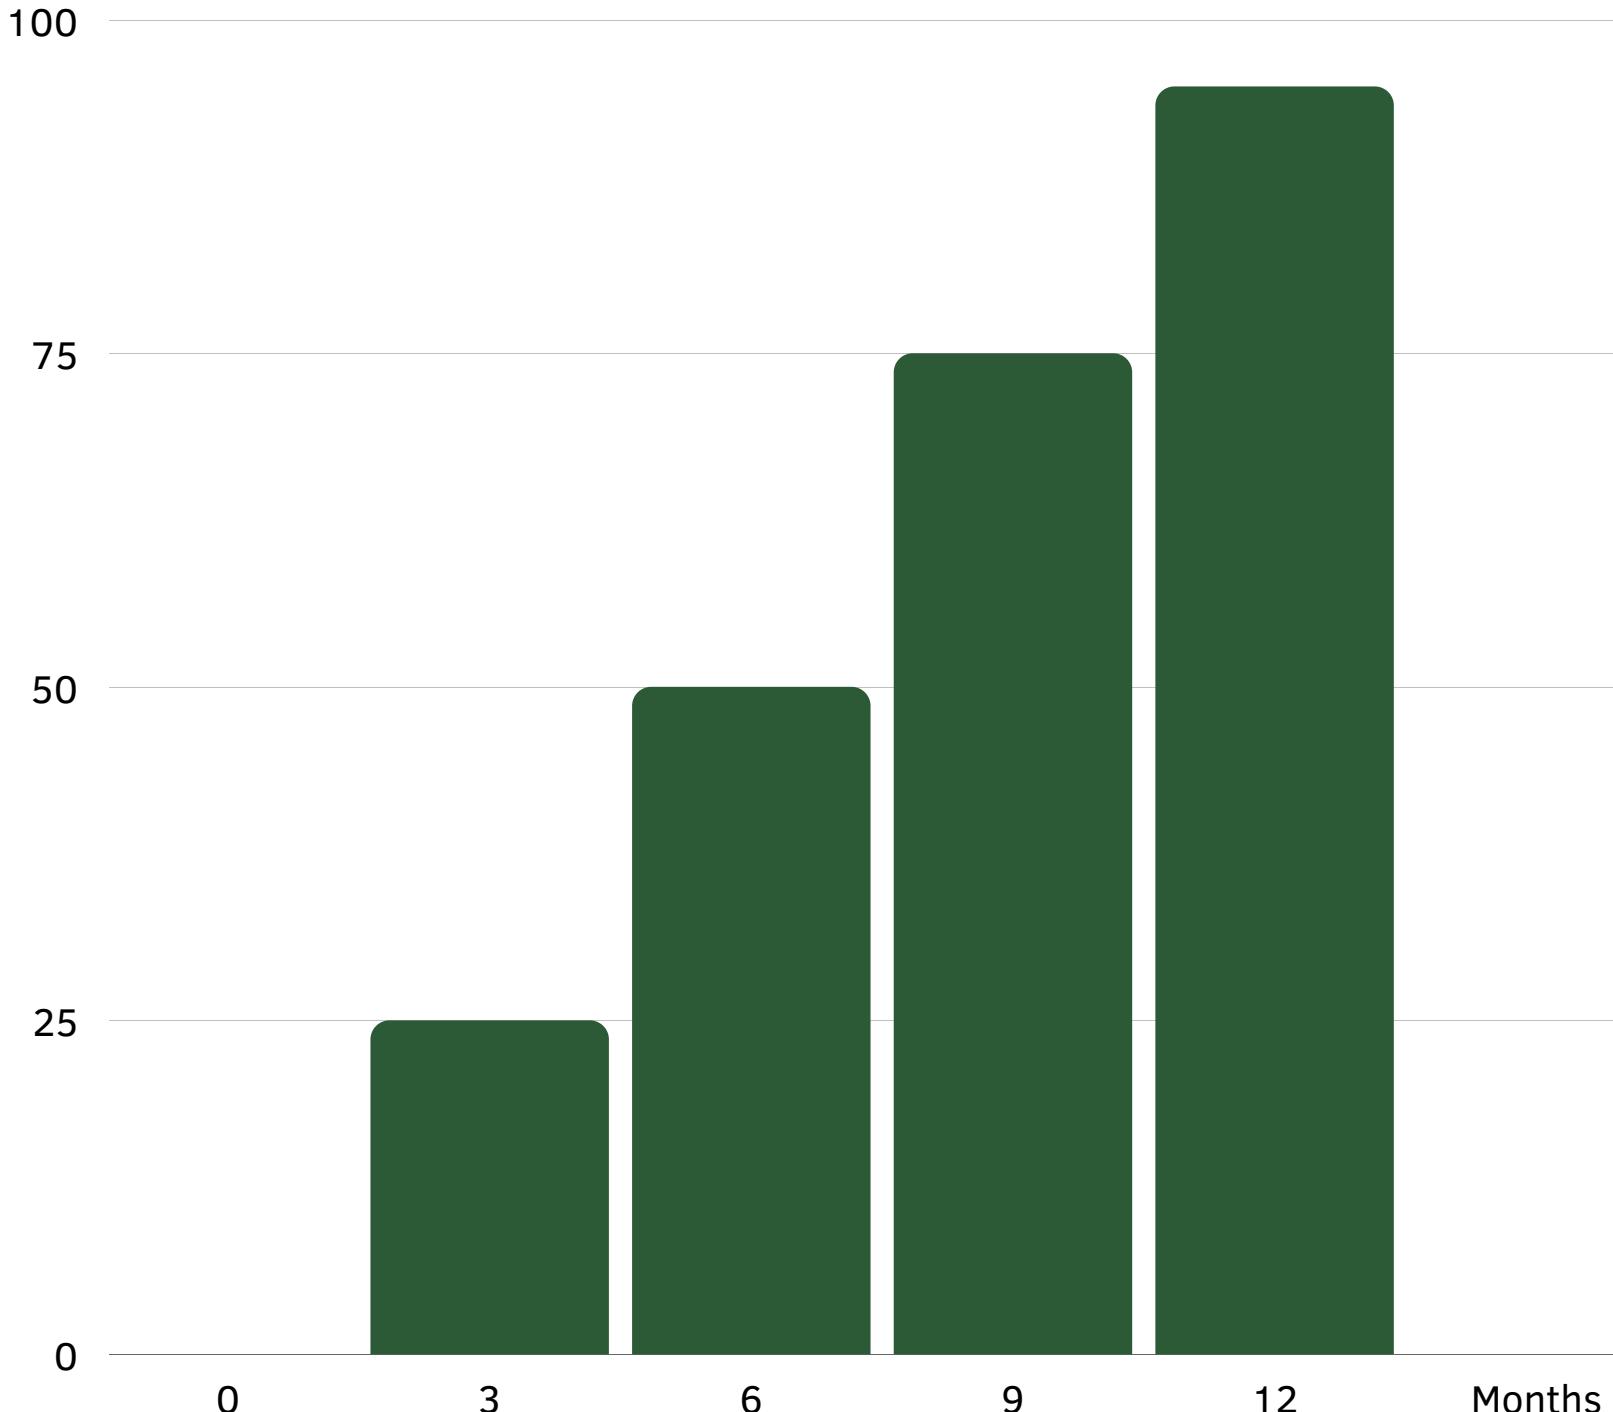

THE KIDDITECH PROJECT CONSISTS OF THE FOLLOWING;

- Trinitas IT club in senior secondary schools across the south-west region of Nigeria.
- Distribution of Personal Computers and educational materials to students
- 12 months CODECAMP with quarterly competition
- Trinitas KiddiTech Scholarship Scheme for top 10 students

Expected Results

X-axis: Estimated time in months
Y-axis: Estimated students' performance

ACADEMIC AND SCHOOL PERFORMANCE

- Improve school & academic performance of children across Nigeria.
- Develop critical thinking, problem-solving, writing, and creativity skills in children.

Accessibility and awareness

- Help senior secondary children visualize the possibilities for how coding and technology can solve problems of their present communities and the future.
- Increase children's accessibilities to computers through the presentation of personal computers and educational materials to children.
- Create nationwide awareness about the importance of IT, coding, and artificial intelligence.

Trinitas IT club & KiddiTech Scholarship Scheme

Creation of a Trinitas IT club in secondary schools with at least 20 club members per school.

Top 10 kids from the Trinitas IT club across schools enrolled in the Trinitas KiddiTech Scholarship Scheme.

Implementation of a 12months CODECAMP for schools.

KIDDITECH Activities

The KIDDITECH Project has been divided into three(3) phases with corresponding activities.

PHASE ONE

Awareness campaign and schools/students selection

PHASE TWO

The selected kids entered into a 12months CODECAMP.

PHASE THREE

The Trinitas KIDDITECH Scholarship Scheme

PHASE 1

ONBOARDING OF PROJECT PARTNERS,
SPONSORS, AND DONORS

Activities are;

SCHOOL SCREENING AND SELECTION

PRESS CONFERENCE

SHORTLISTING AND SELECTION OF
QUALIFIED STUDENTS

SELECTION OF VOLUNTEER PERSONAL TRAINERS
AND CORPORATE IT VOLUNTEERS

SET-UP OF THE TRINITAS IT CLUB AND
STUDENTS ENROLLMENT.

PHASE 2

WEEK.**

**QUARTERLY
EXAMINATIONS**

TEAMS' COMPETITION

PHASE 3

Activities are:

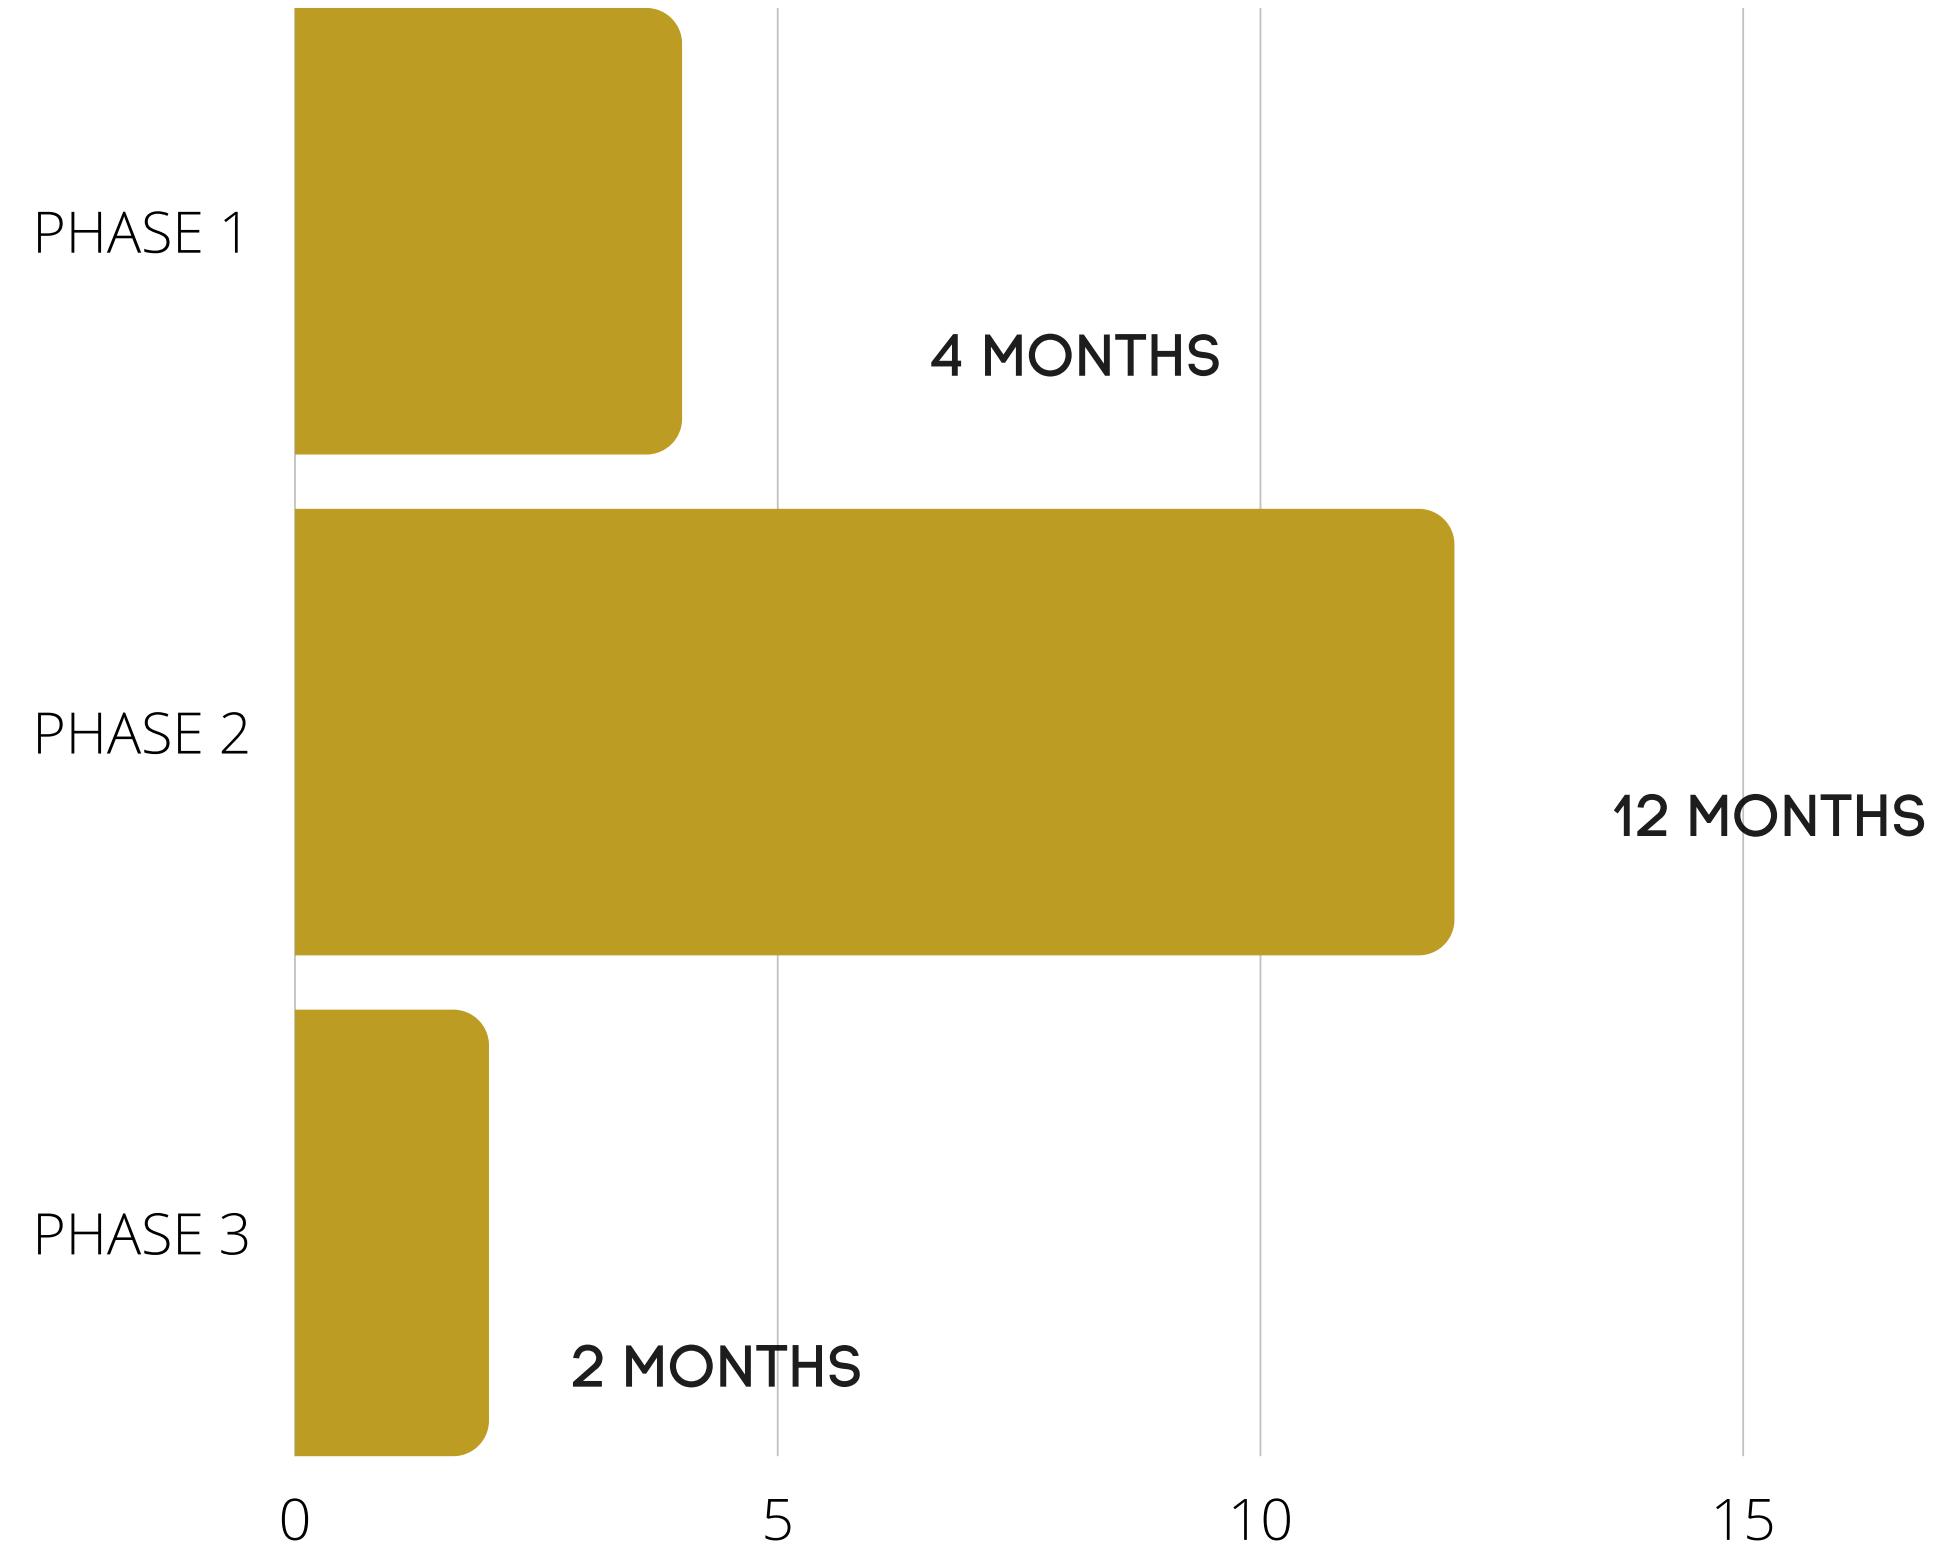

**ASSESSMENT OF ALL STUDENTS/MEMBERS
OF THE TRINITAS IT CLUB**

**ANNOUNCEMENT OF HIGH SCORING
STUDENTS**

**ENROLLMENT OF TOP-SCORING STUDENTS INTO
THE SCHOLARSHIP SCHEME**

**PROJECT MONITORING, EVALUATION,
AND REPORTING.**

Project Timelines

MONITORING AND EVALUATION

CREATION OF A MONITORING AND EVALUATION TEAM THAT WOULD;

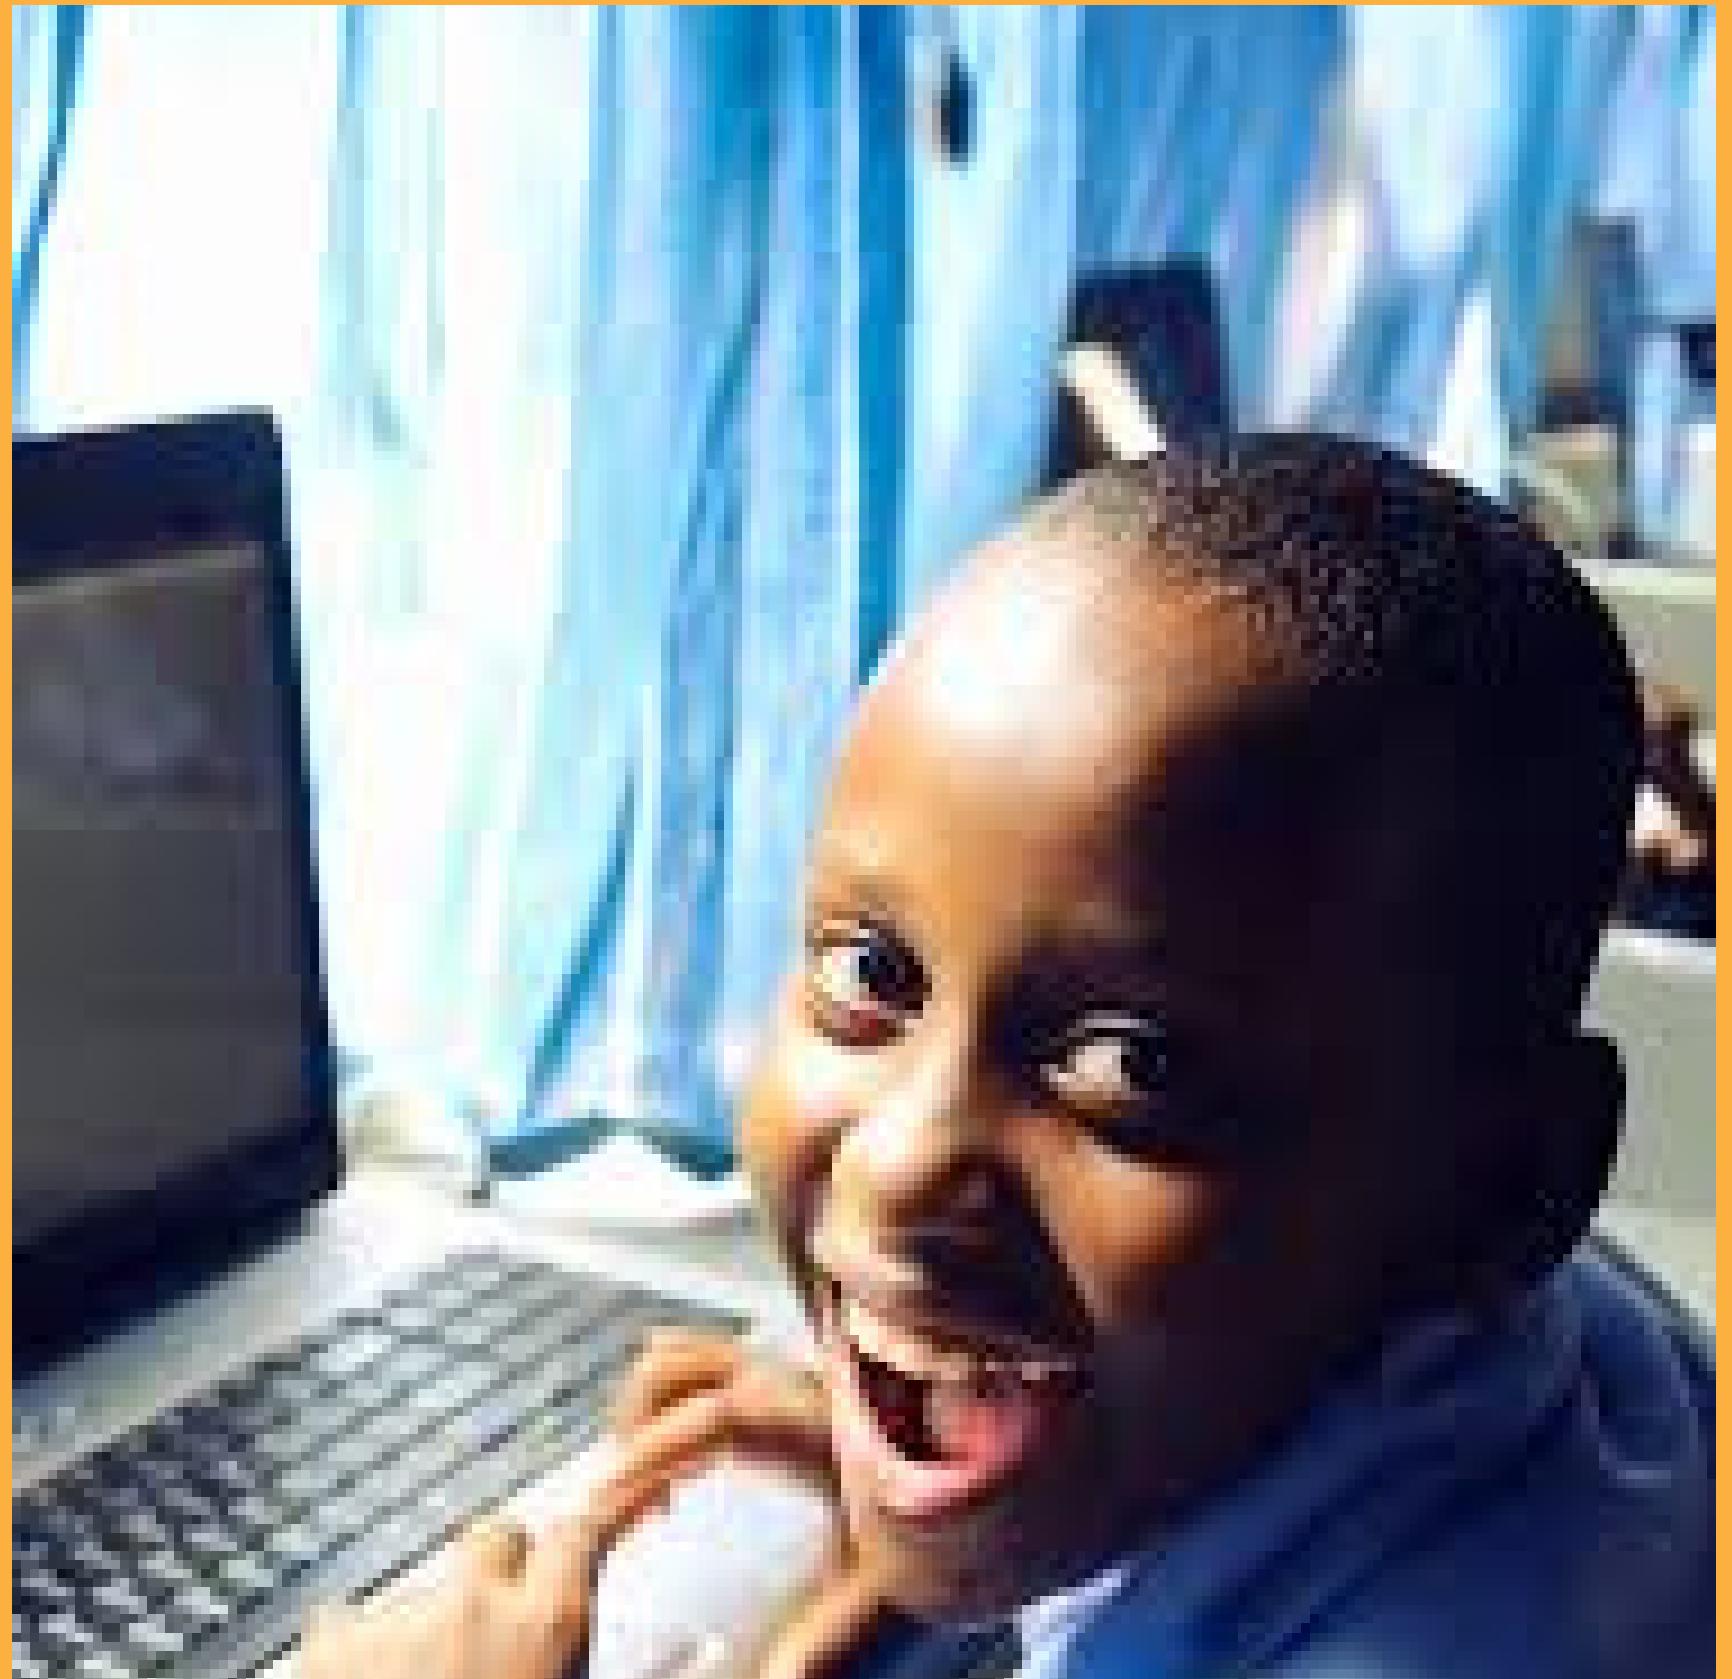

1. Provide accountability reports to all program partners, sponsors, and funders.
2. Give feedback sessions and interview parents, teachers, children, and schools heads to measure project success and identify areas of improvement.
3. Conduct evaluation sessions to evaluate if the organization is meeting up.

EVALUATION OF THE TRAINING AND THE IT CLUBS

1. Learning observation and evaluation through student-parent interviews, examinations, and tests, observation of activities, and response pattern.
2. Post-training call and follow up, 3 and 6 months after training participation
3. Training evaluation forms for trainers after each class.

OUR REQUEST

We humbly request that you partner with us by coming onboard as our training partner for the KIDDITECH project.
